

“Let Me Win” Crypto Pool

A New Crypto Mining Experience

Join Our Bitcoin Mining Pool for higher “solo mining” chance

Fair. Transparent. Optimized for Small Miners.

Why mine with us BTC?

Very high reward share:

- The big relevance of “solo” mining approach, most of all enabled by Bitaxe® hardware, is very interesting but gives you ridiculous chance to win.
- Why not create a bigger hashing power joining our efforts together respecting the “solo” principles and benefits?
- We distribute **75% of the block reward to the winner**, and **15% is shared among the other miners** based on participation (shares).
- **Only 10%** is kept by the pool to cover operational and maintenance costs.

Much higher chance of payout:

- Solo mining gives you 100% of the reward....but almost zero chance of winning!!!
- In our pool, even miners with low hashrate can earn regularly by contributing with shares

Full transparency:

- We developed the blockchain node under Linux Ubuntu and NOMP technology (Node Open Mining Portal)
- All payouts are logged in detailed JSON files and published in a real-time dashboard
- Telegram channel for alerting about resolved blocks
- Public and registered IP @ Aruba.it (188.213.165.46)
- No registration. No KYC. No tracking
- Just connect and mine. That's it. Your hash, your earnings.
- You don't resolve blocks? You get already be paid based on shares you've produced

Direct contact with the pool manager:

- We're not a black-box service. You can always ask questions by Telegram (@lmwpool_btc) or email (info@lmwpool.com), get help, and suggest improvements. The Telegram channel will send you in real time the block resolved in the BTC blockchain, so you can monitor the pool's performance

Coming soon: Bitcoin Cash and mining loyalty tokens:

- Bitcoin Cash mining (BCH) is a project under development that we'll release within 2025
- Every hour you stay connected, you'll earn loyalty tokens. These may be:
 - Converted into future payout credits
 - Redeemed as shares
 - Used inside our community for extra rewards

How to connect to lmwpool.com

- **Bitaxe devices: Stratum URL:** `stratum+tcp://lmwpool.com:3333`
- **Medium and Advanced devices:**
 - **Stratum URL:** `stratum+tcp://lmwpool.com:3334` (medium)
 - **Stratum URL:** `stratum+tcp://lmwpool.com:3335` (advanced)
- **Coin: Bitcoin (BTC)**
- **Username:** your wallet address
- **Password:** anything or "X"
- **Compatibility:** with most ASICs and stratum-compliant miners. Bitaxe® devices are welcome!

Let Me Win Pool

Get your chance to earn Bitcoin at no costs than your own hardware, using the entire pool power!
